

PARENT TESTIMONIALS

My daughter is the second child we have had go through PCCNS. Both my husband and I agreed we'd like to return to this school with our youngest not only because of the positive reinforcement to discipline, but also because of the attention to repetition which busy home environments like ours can sometimes lack, but is required for successful cultivation of good behavior. Both our children have done very well here at PCCNS, and have adored their teachers. My daughter just turned four and is now starting to read! I would definitely recommend the nurturing environment of PCCNS to any parents who might be looking for a place for their children to grow. ~ Heather F.

I am grateful to PCCNS for providing my child with such a positive first experience at school. The teachers at PCCNS were very attentive and nurturing. I was very impressed by the staff's positive and consistent classroom management procedures. My child is currently in elementary school. He arrived there from PCCNS very well academically prepared and with an expectation that school is a fun, safe and caring environment. ~ Chris C.

This is my oldest son's second year at PCCNS. We love the co-op aspect, being able to go into the room to see and participate in his learning experience. Last year, I absolutely loved how he learned how to be a student. Ms. Sally's enthusiasm is contagious, from the songs they sang to the lessons she taught the energy and excitement in the room was tangible. This year, he has taken those skills and has expanded his ability to learn and grow. He comes home every day so excited to tell us how he learned about everything from the Pilgrims and Massachusetts to the shoes the kids in the Netherlands leave out for toys and candy. I am so excited continue to watch him develop and embrace his excitement at PCCNS. ~ Kim H.

We have loved our experience with PCCNS! We are a returning family with our second child now going through the program. Ms. Debbie is a great teacher! She prepares great activities and keeps the children engaged in learning. I love being a part of a co-op school. I love watching my son participating in class and interacting with his peers. I love watching the little ones grow as they prepare for kindergarten. I highly recommend this program to anyone looking for a preschool for their 3-year-old or 4-year-old. PCCNS is great social learning environment for children and parents. ~ Heather C.

PCCNS is a wonderful preschool. As parents we couldn't be happier. The first time we entered PCCNS I knew it was the perfect fit for our daughter. The entire staff has proven to be very dedicated. They've been very patient with both parents and children to make the transition as comfortable as it could be. As first time parents we are so thankful to the staff, especially the Director, Cheryl Piscopo who personally made sure our daughter was settling in well. They do a great job at balancing time for both learning and play time. The field trips are especially fun where extended family is invited to take part in and experience this special time together. We're delighted they still make the Pledge of Allegiance part of the daily routine and even say a simple Prayer before snack, this is what sets PCCNS above all other preschools. The staff at PCCNS makes it their number one priority to ensure the safety of the children, we're satisfied with the procedures and measures they've put in place to make it safe and friendly. We cannot thank the staff enough for the exceptional experience they have provided for our daughter. ~ Tracey F.

I enrolled my daughter in PCCNS and she is enjoying and exploring each day. The Co-op concept enables parents to be part of class and see how their kids learning process goes in school, not only this, it allows parents to save some tuition fees too. Thanks! ~ Chandra T.
